MONEY, STOCKS AND GRAIN

Better Feeling on Wall Street and the Share List Made Material Gains.

Cordage Finances in Better Shape and th Rockefellers Helping Northern Pacific-Indianapolis Cereals Active.

THE BOND MARKET.

Railway Issues Were Firm on Sales That Reached \$938,000. At New York, yesterday, money on call was easy at 2@3 per cent., the last loan be-

ing made at 2, closing offered at 2.

Prime mercantile paper, 6/28 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$1.84% @4.85 for sixty days and \$4.89@4.89% for demand.

There was a decidedly better feeling in stock circles yesterday. At the start prices wan off % to 1% per cent. in sympathy with a break in London, but it soon became evident that the decline was due to manipulation from this side and a rally ensued. There was good buying of stocks generally, and the Vanderbilts were credited with liberal purchases of their specialties. Soon as the market started up the speculation became lively, and after delivery hour was characterized by a positively buoyant tone. The short interest was considerably alarmed, and final quotations were anywhere from 1/2 to 4th per cent. above last night's finals. The announcement that arrangements had been made for funding the floating and other debts of the Northern Pacific through the instrumentality of the Rockefellers and other wealthy capitalists had a marked infinence, as also the statements that the financial condition of the National Cordage Company is much better than had been

d h week or so ago. Railway bonds were tirm. The sales were \$338,000. Government bonds were steady and State bonds were dull. Closing quota-

LCCAL GLAIN AND PRODUCE. Trade Quiet, Weather Conditions Not Fa-

vorable and Prices Steady. It must be said that trade is falling below expectations—the opinion prevails, however, that were the weather conditions more favorable business would improve. The temperature of the last four days has hardly called for the articles which are usually seiling briskly in May. In prices there were no important changes. Coffees are firm at the to advance of Tuesday. and the medium grades of sugar are very firm. Dry-goods market is rather flat, with prices ruling steady. In produce trade is moderately active. Everything seems to be in good supply in the vegetable line except onions. High prices prevail. Choice strawberries are in light supply, while there are plently of poor, small berries on the market. The seed market is flat, clover

There was a little more life to the local grain market yesterday. Wheat holds the firmer tone of Monday and Tuesday. The better grades of corn are in good request, and oats are moving more freely at the fol-lowing range of track prices:

being weak at the recent reduction.

Lesson in Patriotism.

New York Mail and Express.

The man who yesterday made efforts in this city to tear down an American flag belonging to a society composed of Italians will probably not do so again. He will be laid up some days and will have plenty of time to form good resolutions. There are naturalized Italians who, in their loyalty to "Old Glory," shame some native-born

oitizens. A Kansas Aunnias Overdoes It,

Kansas City Star. Merely by way of variety a correspondent in Ellis county, Kansas, sends out a story about hail killing calves, rabbits and birds without number, and lightning at the same time starting several prairie fires. The

HEAVY SLUMP AT CHICAGO

Wheat Takes a Sudden Drop of 2c and Corn Is Pounded Down 14c.

Nothing but Bearish News Being Circulated Both at Home and Abroad, and the Bull Clique Was Reported to Be Unloading.

TRADING AT CHICAGO.

Provisions Also Low, Pork Declining 30c, Lard .25c and Ribs .20c. CHICAGO, May 17 .- There was a costly surprise in the shape of a bad break in prices the last hour to-day on 'Chance. Wheat tumbled to 74'se for July and left off rather weak at 74%c, or 20 under last night's close. Corn quit with a loss of 14c.

Provisions show declines of 30c in pork.

.25c in lard and from .20c to .234 in ribs. In wheat many things combined to create a weak feeling. The Washington and State crop bulletins had a bearish tone, the foreign markets all showed weakness. New York reported nervousness over further Australian bank troubles, a bank at Minneapolis failed and the fact was magnified ten times by the trade. But more than all these influences, the trade was very demoralized by the suspicion that the Cudahy bull clique had number of houses selling all the wheat possible. Pardridge had covered not less than 3,000,000 bushels since Monday morning, and he was not in a hurry to take wheat, even on the break. In addition to this. Armour and N. B. Ream were apparently squarely against the market. They are sellers, it was said, on the theory that the 20,000,000 bushels of wheat here must be carried, and must be sold again. Late cables were lower, and rains were reported in Germany. The opening was 4 @ 4c lower than yesterday's closing, and with some fluctuations, prices further declined 14 @ 14se, held steady, and the closing was about 14 @13sc lower than yesterday. A private cable, purporting to come from Buda Pesth. was circulated among traders, reporting great excitement there, with an advance

Corn was firm and sold at a shade over yesterday's closing prices at the opening, but was crushed by the weight of the offerings when wheat declined. The close was within 'so of inside prices. Advices from the country were that farmers were resuming the hanling of corn to market, and that rail shipments would be much heavier

of 8c per bushel in wheat, owing to dam-

te from drought in nungary. Dut,

as other foreign markets did not seem to

Oats opened firm and remained so until about noon. The receipts were 10 cars short of the estimate and there was a good many buying orders reported. The fine weather and also sympathy with wheat and corn caused a decline in the market toward the close, and values dropped from se to be, closing with se reaction. The provision market was weak, but on

a light trade the slump in grain and the continuation of uneasiness on account of the financial situation were weakening factors, and the market received very little support from the bull clique. Freights were in better demand and lake rates firmer at 140 for wheat and 1@140 for corn and oats to Buffalo. Wheat was

taken through to New York at 7%c. Estimated receipts for to-morrow were: Wheat, 110 cars; corn, 220 cars; oats, 190 cars; bogs, 22,000. The leading futures ranged as fol-Options. | Op'ning Highest. | Lowest. | Closing.

The Grain Weevil. Ohio Corres pondence National Stockman.

5.75; spring, 5@712c per pound.

W. B. Dill asks the Stockman for a remedy for weevil in wheat. I will relate my experience with these small black beetles. In the summer of 1884 when handling my wheat I discovered that it was being badly injured by them. I immediately recleaned the wheat, and found I had lost twenty bushels in two hundred. I was much worried, expecting to have to construct new granaries, but concluded to try some simple remedies first. I removed the wheat and made a thorough application of quicklime. This did no good. I then confined some beetles in a clipped yearlings at \$6.26.75 spring lambs | measure and gave them a heavy dose of

dressed yearlings at 11@12%c; dressed live beetle in the measure. I applied salt to all parts of the granaries and throughout the barn, using strong brine where the dry sait would not penetrate. In two months there was not a live weevil about the barn. I can recommend this at the bisulphide of carbon and much more an ceffectual as well as an infallible remedy; fully as effectual as simple and easily applied. The salt does not injure the wheat in any way.

dition

Transfers, 25; consideration.....\$42,030.00 In many kitchens the sills of the windows are very narrow, while a wide sill is just what is wanted, on which to sun and air the tinware. A pair of iron brackets and a wide planed board is all that is required to extend the narrow sill, and we find it such a convenience that we wonder why we did not think of it before.

Beeswax and salt will make your rusty flat-irons as clean and as smooth as glass. Tie a lump of wax in a rag and keep it for that purpose. When the irons are bot rub them first with the wax rag, then scour them with a paper or cloth sprinkled with
